Boston's Museum of Ice Cream

Consumers in our Supported Living Program took a trip to Boston's Museum of Ice Cream! The Museum of Ice Cream is a self-guided interactive museum. Each room filled with fun facts, interactive games, and of course ice cream! After tasting unique flavors and hanging out in the ice cream diner, we had an amazing lunch in Seaport. Going on fun trips and creating new memories together is what makes these days so special.

We are happy to be a Diamond Sponsor for the 2026 National Self-Direction Conference. We look forward to meeting nationwide partners, networking, and discovering new ideas!

Employment Services Pre-ETS Presentation

Last week, our Employment Services team was invited to Brockton High School to give a presentation on our Pre-ETS Program and share why this work is so important. The Pre-ETS Program is designed to support students by helping them build essential skills, explore career pathways, and gain confidence as they prepare for life beyond the classroom into the working world.

Tempus Unlimited Student Spotlights

Introducing Cooper

Cooper is a participant in the SAILS program at North River Collaborative, where he builds important real-world skills to prepare for adulthood. Based in Downtown Bridgewater, the SAILS (Student Achieving Independent Living Skills) program is for young adult ages 18-22 that focuses on developing independence through hands-on support tailored to each person's interests and strengths.

Cooper has been involved in our Pre-ETS program since December of last year. Through Pre-ETS, he has worked on improving his professional presence, as well as key job readiness skills like creating a resume, writing cover letters, and practicing introductions. He has especially enjoyed assisting the Tempus maintenance team as an internship opportunity, helping him feel more comfortable and confident in a workplace setting.

Outside of his programs, Cooper enjoys horror movies, video games, and collecting trading cards. He describes his "superpower" as his strong communication skills; he can connect with others, understand their interests and carry meaningful conversations. Cooper is known for being kind, observant, and an animal lover, he takes pride in sharing knowledge and information to support those around him.

Introducing Connor

Connor is a 19-year-old in the SAILS (Student Achieving Independent Living Skills) program at North River collaborative who is balancing work and school while gaining hands on experience in landscaping, a field he has been involved in since 2019. He began helping neighbors with their yards and eventually expanded, where he now owns a landscaping business of his own.

Connor is attending Massasoit Community College MAIPSE Program, where he is taking culinary classes to expand his skills and explore his interest in cooking. He joined the pre-ETS program through Tempus Unlimited this past fall, where he has been building important workplace skills, particularly in communication and internship opportunities. He has also gained support with everyday job tasks, including interviewing and professional interactions.

Outside of work and school, Connor enjoys spending time in the sun, skiing, and volunteering with the East Bridgewater Commercial Club. Looking ahead, Connor hopes to continue working in landscaping or pursue a path in diesel or mechanical engineering. He describes his greatest strength as his strong drive and determination; when he sets his mind on something, he gets it done.

Worcester Railers Hockey Game

Tempus Unlimited had the pleasure of joining the Worcester Railers for their Community Corner program, which highlights local nonprofits and gives them a chance to share their mission with the community. We were thrilled to receive complimentary tickets so that families in our programs and staff could enjoy the game! To top everything off, the Railers won in overtime! Thank you to the Worcester Railers organization for welcoming us and supporting the community!
